Advancing Movement of Recent Days Is Continuing.

MONEY SITUATION IMPROVING

Realizing Sales a Feature of Late Afternoon Transactions, Even if They Did Not Bring About a Decline in the Market-Fluctuations of Copper Excite Most Attention.

New York, Oct. 29.-Rather less of interest seemed to attach to the stock market to-day than has been the case previously during the week, although transactions were greater than the late daily average, and the market as a whole continued the advancing movement of the last three days.

Possibly one reason for this is the fact that the greatest activity of the market was concentrated to-day in the first and closing hours of business, and that during the rest of the time prices held with comparative steadiness within a narrow

It was obvious, too, that realizing sales were a feature of the late afternoon transactions, even if those did not go to the extent of bringing about a decline in the market. It was clear, however, that the large rise that has taken place in at least certain steeks in a comparatively short time, was inducing profit-taking, and that the market, while it still expected by the state of the state hibited sustained strength, was yet of a sort to suggest the question whether this strength would last a great while until the continued presence of such liquidation as was witnessed.

No Squeeze in Money,

No Squeeze in Money.

In the main the one impulse behind the market was to-day, as it has been since the beginning of the week, the contact of the beginning of the week, the contact of the same that a change for the better. if there is to be a squeeze in money it will not take place in the near future, at least. Again to-day renewals of call loans were made at 4 per cent, and some borrowing was even done below this figure. It is a fact that certain commission houses in the highest credit can now Am. ingly part of a greater general upmovement in the security that has taken place since the death of Henry H. Rogers.

The only sound basis that could be observed for this physicians. served for this phenomenon was that there have appeared within the last few days signs of greater genuine strength in the market for raw copper metal, but New York Oct. 22—Money on call at the stock exchange to-day opened at \$ per cent, this passes, 4; lowest, 3; closing at 3% per cent. WEEKLY REVIEW OF TRADE

WEEKLY REVIEW OF TRADE

Both Dun and Bradsireet Show Business Conditions to be Highly Gratifying.

New York, Oct. 29.—Bradstreet's review of the state of trade to-morrow will say:

"Trade as a whole is good or better, the former word, in fact, hardly sufficing to characterize the buoyancy and breadth of demand shown in many lines. Industry, in turn, responds with advances of full manufacturers' order books, full or overtime run, and general reports of an insufficiency of skilled laborers to meet requirements. Altogether the situation of the year provises to place 1969 close to the front in the list of years of prosperity.

"While mild weather has tended to retard retail trade in some sections of the year promises to place 1969 close to the front in the list of years of prosperity."

"If further evidence of the rapid expension and steel wear pended."

"If further evidence of the rapid expension and steel were pended to short, the place in some sections of the year promises to place 1969 close to the front in the list of years of prosperity.

"If further evidence of the rapid expension and steel were pended to shorts, the business situation."

"If further evidence of the rapid expension for insufficiency one, and the rate of improvement in the late months of the year promises to place 1969 close to the front in the list of years of prosperity.

"While mild weather has tended to retard retail trade in some sections of the Northwest, the general report is that the contract of the provision were also on that side. Cesh prices were left to the commission house buyers. Chicago Oct. 29.—Wheat opened strong at **to to Chicago Oct. 29.—Wheat op

Northwest, the general report is that the advance of the season and the marketing of the year's crops is bringing out a large volume of trade in the country districts, while enlarging pay rolls, fall festivals, and State fairs are all helping fidence shown in a steady growth of to stimulate distribution in the cities.

"Jobbing trade keeps pace with, and in some cases exceeds, final distribution as regards encouraging reports, dry goods. clothing, millinery, shoes, and kindred lines all reporting good demands, despite the generally very high range of values ties of commercial failures reported thus of all commodities. Earlier reports as to far for October are \$10,291,100, against holiday trade are also very good."

When you hear your friends speak of receiving their "regular dividends," does it not make you wish for an interest-bearing investment of your own?

Depositors in our savings department receive their dividends regularly the 1st of January and July of each year. On these dates we credit the semi-annual interest on savings deposits, which are earning 3 per cent.

We pay 3% interest, compounded every six months.

The Safest Investments

Are those that do not fluctuate during disturbed Are those that do not fluctuate during disturbed conditions of the movey or stock markets. First deed of trust notes (first mortgages), well secured on real estate in the District of Columbia, constitute "gilt-edge" investments. They do not depend upon the financial responsibility of individuals or corporations for their stability, and are exempt from taxation as personal property. We can supply such investments in amounts from \$500 upward. Send for booklet, "Concerning Loans and Investments."
